

Motion and Graphing: Student Activity Sheet

Name: _____

Date: _____

Part 1: Graphing Speed Trials

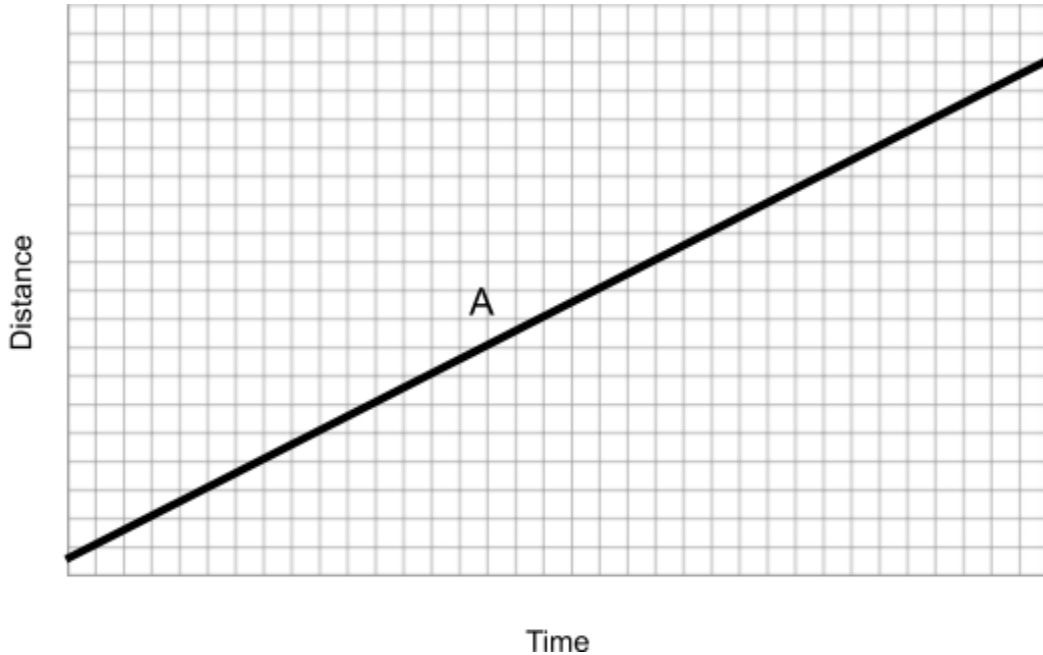

Using your **Data Table #1** and **Graph #1** answer the following questions.

1. Where do you think the car was going the fastest? _____
2. Where do you think the car was going the slowest? _____
3. Compare those two points on your graph. What do you notice? _____

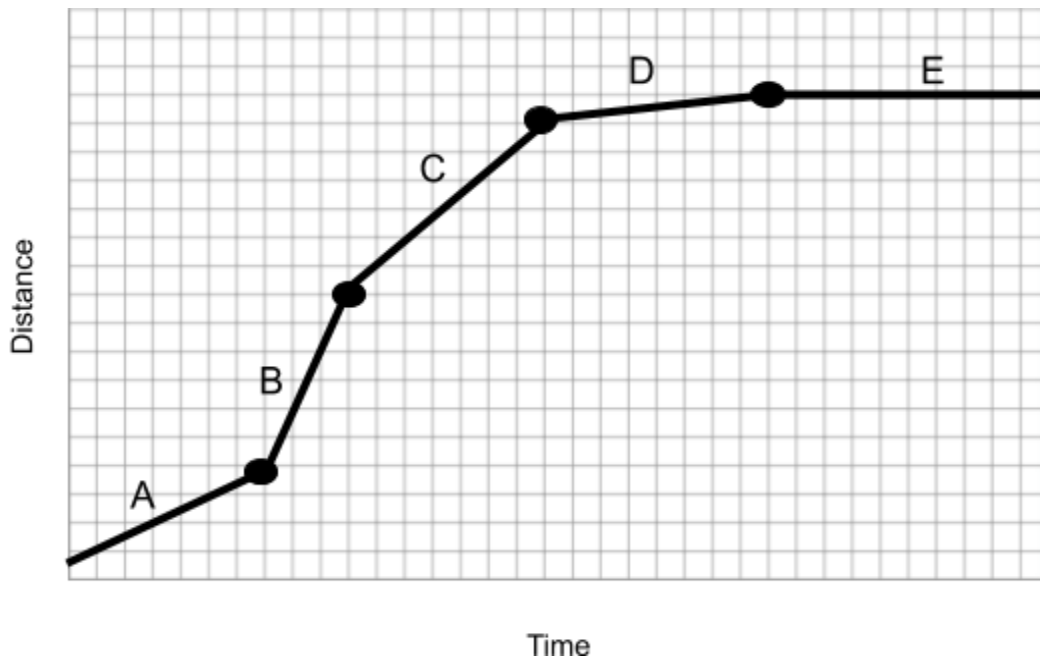

4. What is the average speed of the whole graph? _____
5. What is the average speed of the fastest 50cm? _____
6. What is the average speed of the slowest 50cm? _____

Part 2: Distance/Time Graphs

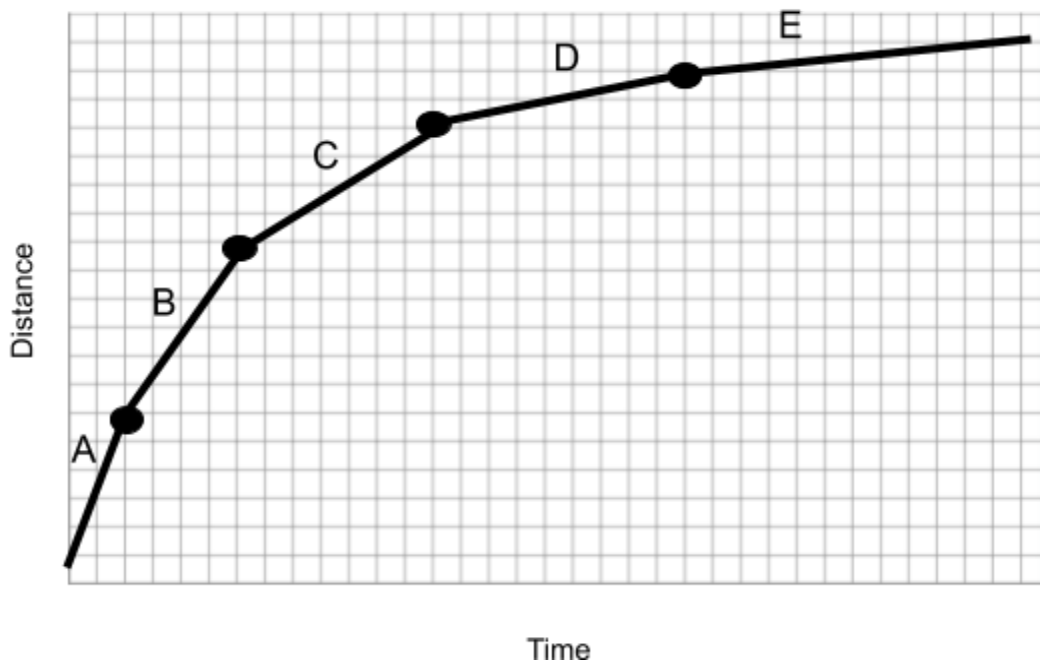

For each example, use evidence from the graph to tell the story of the car's travel over time.

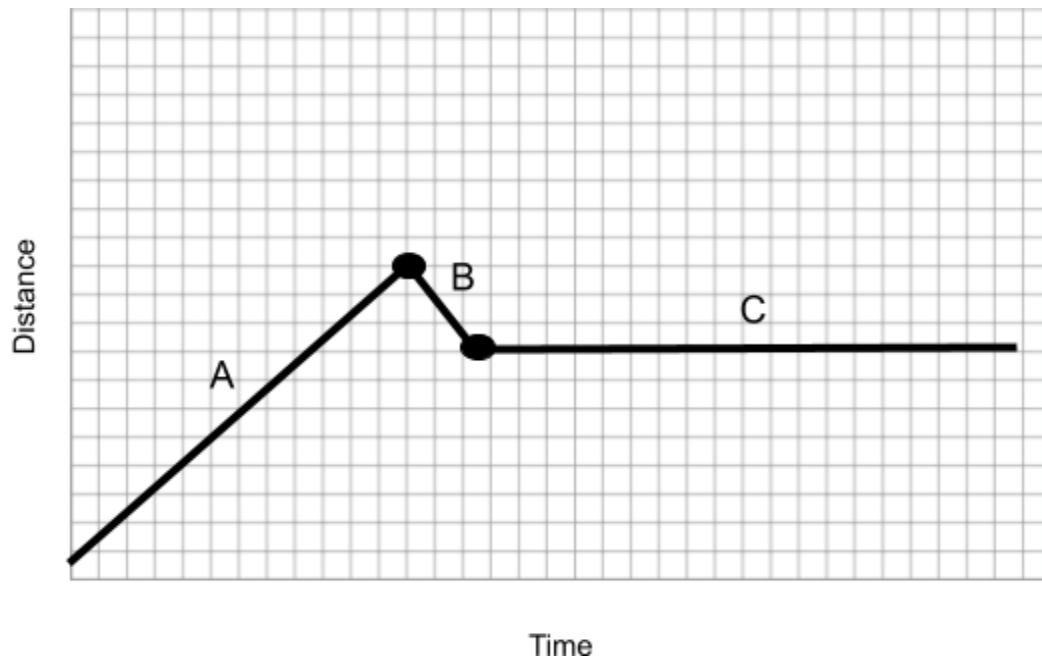

1. _____

2.

3.

4. _____
