iNaturalist: How to Make an Observation with Your Phone.

iPhone

1. Click Observe.
2. Add one or more clear photos as evidence.
3. Choose what you saw.
4. When you saw it should be uploaded automatically.
5. Where you saw it should be uploaded automatically. If this doesn't happen, check app permissions in the Setting app.
6. Save your observation.
7. Sync to share with the community. This should happen automatically. If it doesn't, tap the button.

Choose one of the computer vision suggestions, search for something else, or type in a 'Placeholder' if offline

Observations are automatically counted by collection projects and can't be added manually

The app should fetch your location automatically and display it on the map. If it doesn't, go to the Settings app and tap Privacy to enable Location Services for iNaturalist

Upload
